

AGA LAB is a laboratory for artists, designers and other creative professionals who want to experiment with graphic techniques in the broadest sense of the word. It is a well-equipped public studio. We organize master classes, workshops, lectures, presentations and offer an Artist in Residence program. AGA LAB strives for environmentally friendly production, stimulates crossovers and innovations. Every year, around 300 artists and designers use AGA LAB, and is part of a large international network of related institutes. AGA LAB receives multi-year funding from the Arts Plan of the Amsterdam Fund for the Arts.

\* formerly Amsterdams Graphic Studio.

### **AGA LAB is looking for a technical supervisor etching, lithography, letterpress (m/w), 0,2 fte**

The technical supervisor / workshop assistant receives and accompanies customers of the workshop and supervises professional and careful use of the equipment. He / she is an experience expert in printing techniques, has a service-oriented attitude, knows how to handle and thinks and collaborates with clients.

The supervisor / workshop assistant provides (technical) support for activities and projects of AGA LAB. A pro-active attitude is expected from her regarding the daily management and production activities of AGA LAB and her clients.

The function is ideal for artists or graphic specialists who want to further develop their knowledge of printing techniques.

#### **What we ask for**

Extensive experience with, and enthusiasm for, screen printing on paper, textiles and other materials.

Want to share knowledge. Is open to new developments in the profession.

A hands on mentality; does what it takes to achieve good management and execution.

Being able to work on a project basis and to conceive and set up projects.
