Techniques you wish to use and/or discover

Describe your research/project plan in max 120 words

During our standard opening hours, there is always someone present to help. However, if you have little or no experience in the techniques you are planning to use, and you need more than a standard introduction before starting work in our studio, please inform us so we can make sure there will be a studio technician available with the right expertise.

Please note:

I am experienced in the techniques I want to use/ explore.

I am not experienced in the technique (s) I want to use/ explore and would like to book a private introduction (€ 55,- / hr).

This application does not guarantee a residency at AGA LAB. Only after the residency and your preferred time period have been approved, and the required deposit has been received by AGA LAB, the residency will be secured. When you make the deposit, you agree automatically with our cancellation policy.
