

STEPS FOR TOYOBO TRANSPARENCY

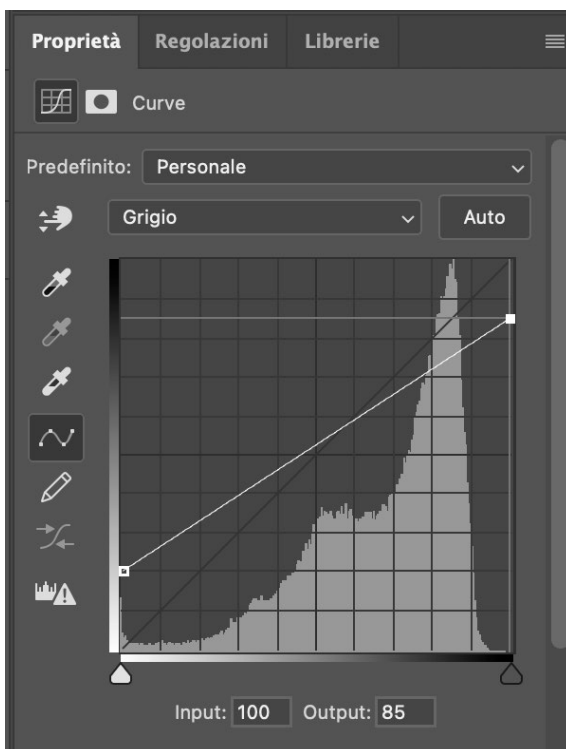

You need to print a POSITIVE, grayscale version of your chosen image, prepped on an A4 page as illustrated here on the left side.

> In photoshop open your image, select: IMAGE > METHOD > GRAYSCALE

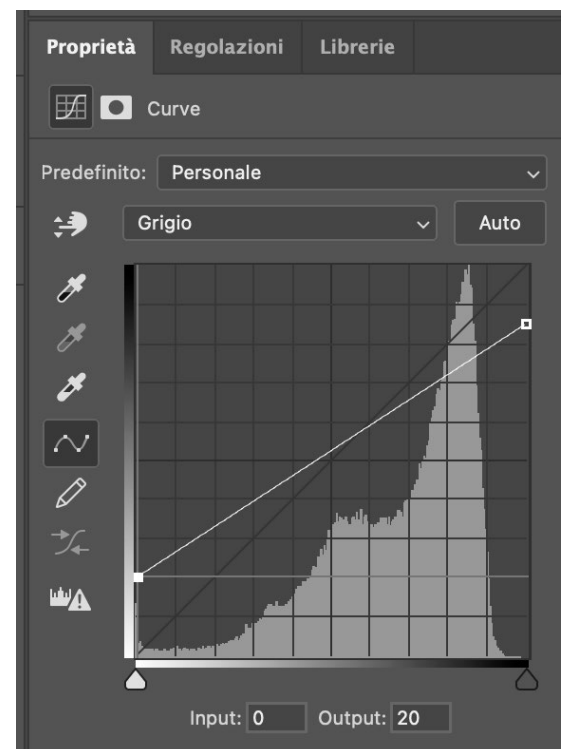

> Then open the CURVES regulation for the image. Click on the black margin and change the output to 85% (IMG 1).

Now click on the white margin and change the output to 20%. (IMG 2)

Image is ready to print! Print on a plastic transparency.
